## TIGER SHARK KILLS 2 AND MAIMS THIRD

Boy Bather Devoured; An-  
other Loses Leg; Rescuer  
Also Dragged Down.

### THOUGHT MONSTER A LOG

State Aid to Be Sought to Hunt Down  
Maneaters Believed Swarming  
Jersey Coast.

(By the Sun News Service.)  
Matawan, N. J., July 12.—A man-eat-  
ing shark swam through Raritan Bay  
and up the Matawan Creek this after-  
noon, killed a boy swimmer, mangled a  
man so badly that he died two hours  
later in a hospital, and savagely at-  
tacked a second boy bather, taking away  
nearly all the back of a leg.

The dead boy is 12-year-old Lester  
Stillwell. His body had not been re-  
covered at a late hour tonight, although  
searching parties with dragging irons  
and dynamite hunted long and thoroughly  
for it.

The man, attacked as he was making  
a heroic endeavor to fish up the body  
of the boy after the shark had dragged  
him down, was Stanley Fisher, a popular  
young man of this place. His right leg  
was torn, and he was so weak after his  
removal to the Monmouth Memorial Hos-  
pital at Long Branch that the surgeons  
did not dare to amputate it. Death re-  
sulted from loss of blood.

The third and more fortunate victim  
of the monster's afternoon work was  
16-year-old Joseph Dunn, a summer  
visitor here, who is said to live in New  
York. He is in St. Peter's Hospital. The  
lower part of his leg is missing, but the  
doctors hope to save his life.

Young Lester went bathing with Albert  
O'Hara, Frank Clowes and other boys  
near his own age, at Wyckoff's dock,  
about 500 yards from the mouth of  
Matawan Creek, which is about fifty  
feet wide. O'Hara got a glimpse of what  
he supposed to be a log on the surface  
of the water and was startled to see the  
thing start towards him. He was near  
the dock and reached it in a few strokes.  
As he was pulling himself up a shark  
attacked him. Screaming he was pulled  
under the surface.

The fact that several sticks of  
dynamite, exploded under the water,  
failed to bring his body to the surface  
leads to the belief that he was entirely  
devoured by the man-eater.

An hour after the tragedies, not a  
person was to be found in the water  
from Raritan Bay to Matawan.

An effort will be made at once to  
secure State aid to hunt down and de-  
stroy the shark, or sharks, which have  
caused so many deaths in water hitherto  
considered absolutely safe.

War Department.

Mrs. Margaret Beutinger, who shot her  
husband to death in their magnificent  
home at Caldwell yesterday, rallied to  
her support today to secure her re-

her five children. It is the contention  
of Mrs. Beutinger and her friends that

tried to gouge her eyes out, choked her  
and often threatened to end her life.

## Lusitania Sent Down Against Kaiser's Will

(By the Sun News Service.)  
Amsterdam, June 25.—"Get  
Tirpitz on the telephone at  
once."

It was Emperor William  
who gave this curt command  
to his personal adjutant a few  
minutes after he had been in-  
formed of the sinking of the  
Lusitania on May 7, 1915. Then, a moment later:  
"My God, what have you  
done? Is it true?"

After listening only a few  
seconds to the voice at the  
other end the Kaiser abruptly  
hung up the receiver, sank  
back in his chair as if strick-  
en by a thunderbolt and ex-  
claimed several times in suc-  
cession:  
"My God, my God, that I  
did not intend."

## "SUB" SAILORS ARE "CAUGHT"

Men of Deutschland Wined,  
Dined and Arrested—  
In Washington.

A Washington traffic policeman yester-  
day accomplished what the entire naval  
fleet of England would like to accomplish  
—the capture of six husky members of  
the crew of the submarine Deutschland,  
first of the German undersea craft to  
cross the Atlantic.

The doughty German sailors were  
speeding to Washington for their first  
glimpse of the Capital, when they were  
overtaken. Bicycle Policeman S. J. Marks  
saw the party at Queens Chapel road,  
and decided the chauffeur was going too  
fast. He overtook the machine at Fif-  
teenth and H streets northeast and ask-  
ed the occupants to accompany him to  
the Ninth district station. There \$3 col-  
lateral was deposited and before the sail-  
ors left, they shook hands and accepted  
congratulations from the police.

If there was any uneasiness in the  
minds of the crew as to their ability to  
elude the British warships on the return  
voyage, it was not permitted to inter-  
fere with their enjoyment of the trip to  
Washington, nor was it reflected in the  
smiling faces of the Teutons as they wel-  
comed congratulations of all whom they  
encountered on their sightseeing tour.

Everywhere the sturdy seamen went

Yaqui Indians have crossed the Sierra  
Madre mountain range and are streaming  
eastward to join Villa's force near Parral.  
They are believed to have been formerly  
part of Gen. Calles' division. Military au-  
thorities believe the bandit leader will be  
in control in Mexico within a short time.

## CARRANZA REPUDIATES HIS OWN CURRENCY

ficials here to repudiate his own cur-

lars floating about the strife-torn repub-  
lic. The first chief's orders today to his  
representatives were to accept only Ameri-  
can currency and Mexican silver.

## M'CORMICK SETS BALL ROLLING IN MID-WEST

Chicago, July 12.—Vance McCormick,  
campaign manager for President Wilson,  
breathed into Chicago for a few hours to-  
day for a confab with Democratic leaders  
at Western headquarters and then

said he came to get the mid-Western  
campaign in motion. He declared reports  
from all sections show Wilson to be  
gaining strength daily.

## ALLIES' GUNS CHECK TEUTON RALLY ATTEMPT

Germans Fall by Thousands  
in Futile Attacks on Brit-  
ish and French.

## BATTLE RAGES AT VERDUN

Solid Masses of Kaiser's Infantry  
Pour Across No-Man's  
Land.

(By the International News Service.)  
London, July 12.—Driven from a portion  
of the Mametz wood on the Somme front  
by a strong German attack last night,  
the British today not only retrieved their  
lost ground, but tonight are in posses-  
sion of the entire wood.

Similar success attended the British  
efforts in the Trones woods, where they  
likewise were pressed back by the Ger-  
man attack of last night. Today the  
Germans not only were forced to give  
up the ground they had taken, but were  
driven further back toward the eastern  
edge of the wood.

The French section of the Somme front  
saw no activity, but their comrades at  
Verdun were compelled to withstand one  
of the most terrific attacks yet aimed at  
this fortress.

Having reduced to ruins Fort Douaumont  
and captured Fort Vaux, the Ger-  
mans today made a massed assault with  
15,000 men and gained a foothold in the  
French line at Chapelle-Sainte, at the  
intersection of the roads leading to Ver-  
dun from Fleury and Vaux. Six picked  
regiments were thrown into the attack.

The preliminary bombardment started at  
daybreak. It continued with exceptional  
fury until 10 o'clock when, from the  
village of Fleury and the Vaux and  
Chapelle woods, solid masses of German  
infantry poured across the No Man's  
Land between the lines and fell upon the  
French works.

Stubborn resistance was offered by the  
French, the guns of the defenders in-  
flicting "huge losses" on the attacking  
columns, according to the official report  
from Paris tonight.

Launching of the German assaults last  
night against the British and today  
against the French followed the arrival  
on the western front of heavy re-enforce-  
ments.

Both attacks were made apparently  
without regard to the loss of life en-  
tailed.

## WOMEN TRAIN WRECKERS IN DYNAMITING PLOT

(By the International News Service.)  
Altoona, Pa., July 12.—Detectives rushed  
from all parts of the State to this city  
to investigate the attempted dynamit-  
ing of a passenger train on the Penn-  
sylvania Railroad near Bellwood.

women laid the 100 sticks of dynamite  
with time fuses attached found between  
the tracks early today.

## KAISER'S ARMY TURNS NOW TO RAG PICKING

London, July 12.—Judging from a recent  
German army order which has reached  
London, every German general will soon be  
leading an army of ragpickers. The time  
is not far distant when the German sol-  
diers will use their bayonets to prod rub-  
bish heaps in search of rags, waste paper,  
empty cans and old bottles.

The order states that economy on the  
battlefield will henceforth be essential.

## HEREAFTER HE'LL BE VERY KIND TO GOATS

Aurora, Ind., July 12.—Chaw C. Suer-  
man had a narrow escape from drown-  
ing in Hogan Creek when a goat he  
was teasing turned and attacked him.

Suerman was attempting to escape  
by running along the bank when the  
goat butted him off the embankment and  
he went down in about ten feet of water.  
The goat would not permit any one to  
approach the stream until its owner ar-  
rived with a rope and succeeded in  
getting Suerman out as he was sinking  
the third time.

whether more water can be diverted  
from the Niagara River without af-  
fecting the scenic beauty of Niagara  
Falls will be gathered by a dozen  
members of the House Foreign Af-  
fairs Committee who left for Niagara  
Falls last night.

## "Sub" to Carry Americans To Guard Against Attack

Answering the statement of the French and British embassies  
that the German submarine liner Deutschland would be fired upon  
yesterday that the officials of the German line controlling the daring  
under-sea boat have agreed to carry two American citizens on the  
return trip.

If the government upholds its ruling in the Sussex case now that  
the Deutschland is held strictly a merchantman, it must, to be con-  
sistent, in case of an attack without warning, rule that the act is  
deliberately unfriendly to the United States.

## VILLA ROUTS CARRANZISTAS

De Facto Troops Reported  
Defeated After Twelve-Hour  
Battle in Chihuahua.

(By the International News Service.)  
El Paso, Tex., July 12.—Unofficial re-  
ports to the American military officials  
here indicate that "Pancho" Villa has  
completely routed the Carranzista forces  
in southern Chihuahua after a 12-hour  
fight which ended at noon today.

The information was received through  
reliable American mining companies who  
have large interests in the vicinity of  
Parral. A message sent in from a small  
station near Parral said:  
"Villa controls."

It is reported that Jacinto Trevino has  
been relieved as supreme commander of  
the de facto government's army in  
northern Mexico. His successor is to be  
Gen. Ignacio Enriquez, former military  
governor of Chihuahua.

## U. S. TO HAVE U-BOAT LINE

Conferences Held in Baltimore  
Relative to Forming Mon-  
ster Undersea Company.

(By the International News Service.)  
Baltimore, Md., July 12.—Successful  
undersea commerce which became an ac-  
tuality with the arrival here of the Ger-  
man submarine Deutschland has become  
the signal for the institution of a gigantic  
international enterprise interesting both  
American and German financiers, inven-  
tors and merchants.

Preliminary conferences were held to-  
day in the offices of the A. Schumacher  
& Co. concern, North German-Lloyd  
agents, relative to the reorganization of  
the Ocean Transportation Company limited  
of Bremen, which built the Deutsch-  
land, with Simon Lake, American subma-  
rine inventor, and agents of the Krupp  
enterprises as the principal factors. An  
enormous capital will back the project  
for a fleet of mammoth undersea craft.

Paul G. Hilken and Henry G. Hilken,  
of the Eastern Forwarding Company, will  
become directors in the concern which  
will be controlled in the United States  
by Alfred Lehmann, of the Bremen concern,  
who maintains his interests.

The boats planned will have freight ca-  
pacities of 5,000 tons and will be con-  
structed at a cost of \$1,500,000 each.

## COP CAN'T, TO SAVE HIM, REMEMBER TAKING WIFE

Philadelphia, July 12.—Nell Maguire, a  
policeman charged by his wife with non-  
support denied today all knowledge of a  
wedding ceremony which made him the  
husband of Bertha Glasco Maguire in  
Elkton, Md., last April.

According to Maguire, he became in-  
toxicated, he said, and when he sobered  
he was told he was married.

## GERMAN AGENT ESCAPES Pursuing U. S. Marshal Arrested and Jailed by Mexicans.

Nogales, Ariz., July 12.—Capt. Richard  
W. Schweitzer, self-alleged German secret  
service agent, who has been held here  
several days on orders from the army  
officers at El Paso, escaped across the  
border late today and United States  
Marshal Duncan, who attempted to re-  
capture him was taken into custody by  
the Mexicans and lodged in jail.

## THIS CINDERELLA GETS DAMAGES FROM CITY

Cleveland, Ohio, July 12.—"And Cinde-  
rella married the prince and they lived  
happy ever after."

Less romantic but more expensive was  
the denouement of the story enacted in  
Common Pleas Court after twelve jurymen  
had spent the day in gazing upon the  
shapely slipper of another Cinderella. The  
jurors decided that the plaintiff was en-  
titled to \$2,500 from the city because the  
slipper had slipped on the pavement of  
Euclid avenue and had permanently in-  
jured her.

### Four Believed Lost in Flames.

time in Kansas, so far as is known,

less than that of threshing by steam.

## U-BOAT THREAT BROUGHT TO U. S. BY DEUTSCHLAND

Officials Regard Trans-Atlan-  
tic Trip as Effort to Force  
Action on Blockade.

## AROUSE ADMINISTRATION

Fear Germany May Sink Steamers in  
Sight of American  
Shores.

Though officials here share the general  
admiration for Germany's latest subma-  
rine exploit, there is a note of keen re-  
sentment at the State Department over  
Germany's threat to resume submarine  
warfare which comes simultaneously with  
the arrival of the Deutschland here.

Coupled with the news from Berlin the  
undersea boat's trans-Atlantic voyage as-  
sumes the guise of a distinct threat. It  
implies, according to officials, that Ger-  
man U-boats can escape the cordon of  
the British blockade and operate unin-  
hindered in the steamer routes of the At-  
lantic. Some officials even regard it as  
a threat on the part of Germany to sink  
steamers, if the submarine warfare is re-  
sumed, within sight of American shores.

The threat to resume submarine war-  
fare is based on the apparent inactivity  
of the United States government in deal-  
ing with the British blockade.

No official notice is being taken of the  
threats. In fact it has been publicly  
stated by Secretary Lansing that Ger-  
man threats to hurry United States ne-  
gotiations with Great Britain over the  
blockade would only act as a hindrance to  
these negotiations.

The probable immediate result of Ber-  
lin's efforts to hurry American negotia-  
tions with Great Britain will be the re-  
sumption of the American demand to  
know what punishment, if any, was  
meted out to the German submarine com-  
mander who torpedoed the Sussex. Am-  
bassador Gerard at Berlin has been un-  
able to get any satisfaction whatever  
from the German foreign office on this  
point.

### German Demand Home Crisis.

(By the Sun News Service.)  
Berlin, via Amsterdam, July 12.—The  
ever-growing movement in powerful cir-  
cles in Germany for a renewal of an un-  
restricted submarine warfare which the  
Sun News Service correspondent reported  
nearly a month ago, is rapidly ap-  
proaching a crisis which threatens to  
culminate in the resignation under pres-  
sure of the imperial chancellor, Dr. Von  
Bethmann-Hollweg.

The latter, however, is determined to  
wage a fight to a finish. He has on his  
side the full confidence and good will  
of the Kaiser and the support of the So-  
cialists and the bulk of the other parties,  
excepting the Conservatives and Agrar-  
ians.

There is some talk here about Prince  
Von Buelow leading the fight on Dr. Von  
Bethmann-Hollweg, with the hope to  
drive out the chancellor and take the  
office himself.

## Officer to Keep Secret "Sub" Data

Construction Mysteries of the  
Deutschland May Never  
Be Divulged.

Valuable secrets of German submarine  
construction, hidden in the undersea  
boat Deutschland, will never be divulged,  
even to the United States navy, by Capt.  
C. F. Hughes, who returned to Washing-  
ton yesterday after a thorough and de-  
tailed inspection of the ship. He regards  
the honor of an American naval officer  
more important than all the valuable  
technical information he learned by his  
inspection.

"My object in inspecting the Deutsch-  
land was not to obtain secret informa-  
tion but to follow out my orders," said  
Capt. Hughes in answer to an inquiry.  
"I made a point of not learning more  
than I could help," he added.

Capt. Hughes has forwarded a detailed  
report on to the Treasury Department.  
It was sent to Acting Secretary of State  
Polk.

### Steamer Ramos Sinking.

New York, July 12.—The steamship  
Ramos is sinking 310 miles northward  
of Watling Island, according to dis-  
tress signals sent by her and picked  
up by the steamer Van Hogenen, en  
route for a Florida port. The Ramos  
reports that her engines are disabled.

### Australian Commission Coming.
